

April 2025 Impact Report

Sri M inaugurating the 64 slice - CT Scan Machine

Executive Summary

1. A state-of-the-art Mother and Child Unit is now fully functional at Swaasthya Hospitals, offering comprehensive antenatal to postnatal care, including early registration, anomaly detection, high-risk pregnancy management, and comorbidity treatment — all under one roof.
2. The Radiology Department has been strengthened with advanced diagnostic and imaging facilities, including Digital X-rays, Ultrasound, and CT scanning, enhancing non-invasive, real-time diagnostics.
3. Five outreach camps in General, Neurology, and Gynecology specialties were conducted, benefiting 271 patients.

KEY METRICS

1747 OUT - PATIENTS TREATED	44 IN PATIENTS TREATED	5 COMMUNITY CLINICS	91 % FREE / SUBSIDIZED TREATMENT

About Swaasthya Hospitals

Sri M, the visionary founder of The Satsang Foundation, has established Swaasthya Hospitals, a specialty healthcare centre in Madanapalle, Andhra Pradesh, India. This initiative fulfils his commitment to providing quality medical care to underserved communities in the region.

The hospital offers advanced healthcare with departments including General Medicine, Surgery, Obstetrics & Gynecology, Dental, Orthopedics, and Physiotherapy, delivered through outpatient, inpatient, emergency, pharmacy and laboratory services. It also conducts public health camps and specialty clinics, with a special focus on students, women, the elderly, and economically disadvantaged groups, particularly tribal communities.

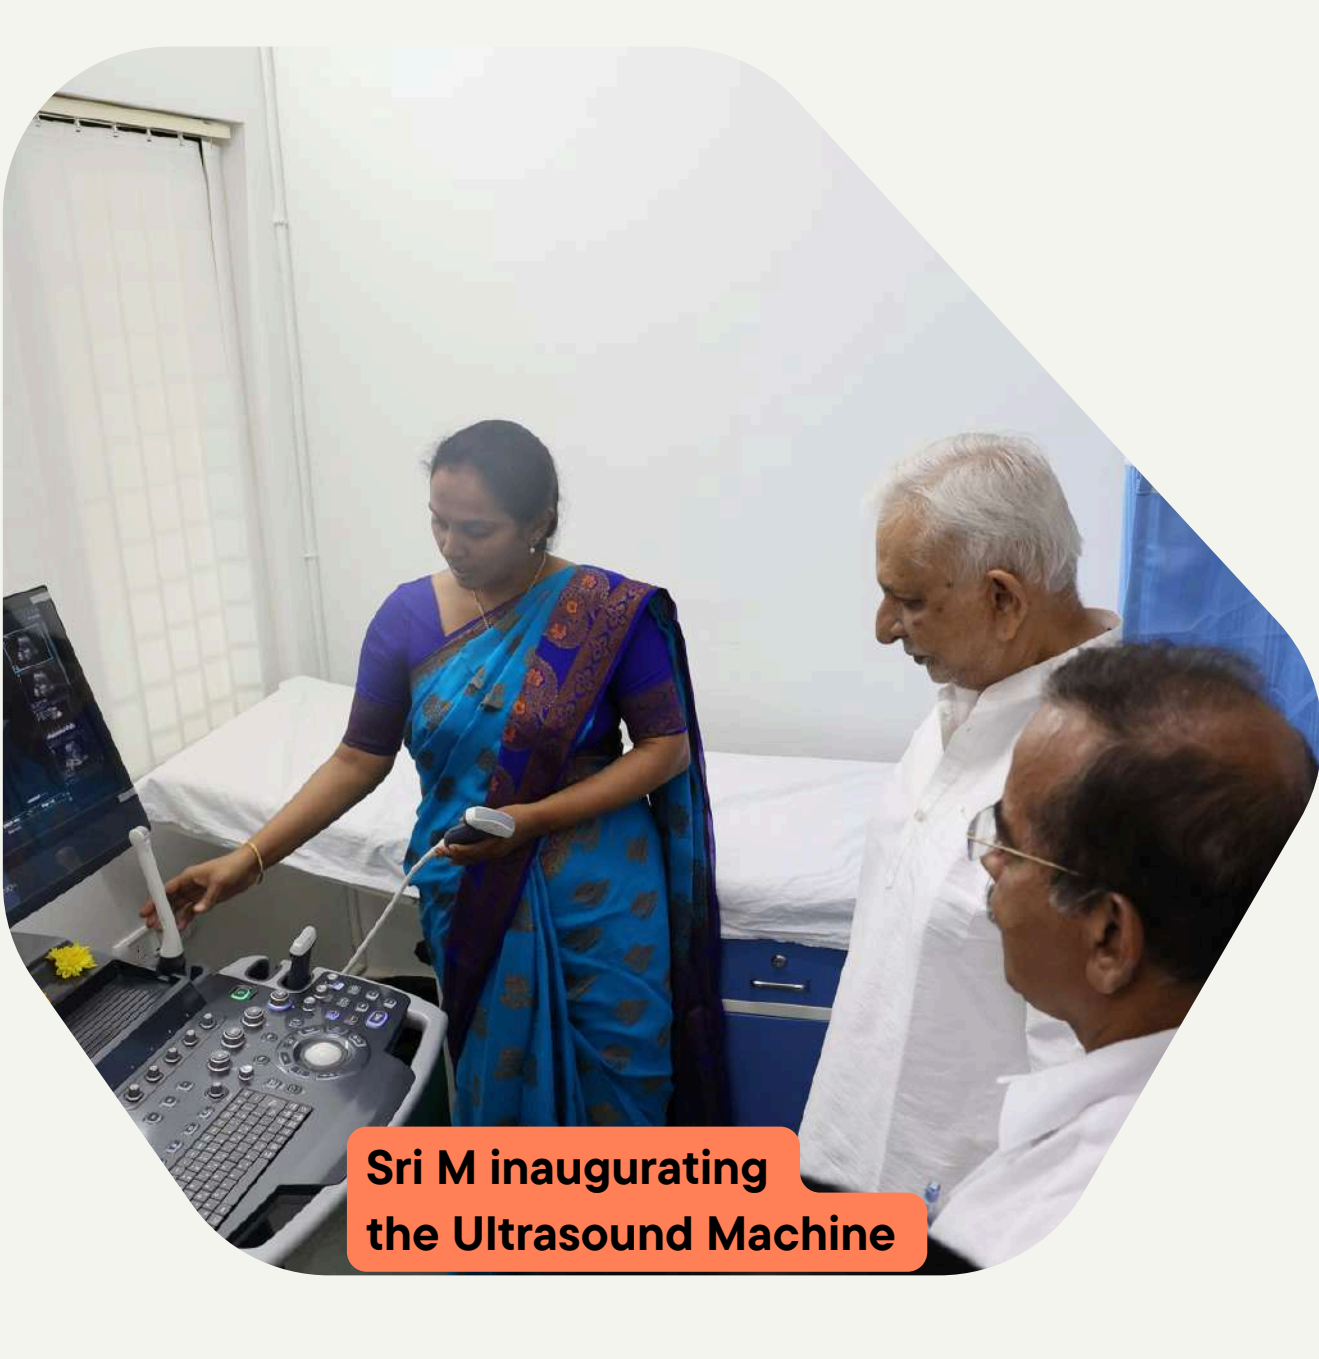

Comprehensive Mother & Child Department

The Mother & Child Department at Swaasthya Hospital is now fully operational, offering state-of-the-art, integrated care for women and infants, including the newly inaugurated Ante-Natal unit. From early pregnancy to delivery, the unit provides continuous care through prenatal counselling, diagnostic evaluations, anomaly detection, and the identification and management of high-risk pregnancies and comorbidities.

Equipped with advanced imaging and ultrasound services, the unit ensures early detection of complications and timely interventions. With a strong emphasis on safe motherhood, it aims to significantly reduce maternal and infant mortality rates while improving overall health outcomes for mothers and newborns.

Inauguration of the Neo-Natal unit

Sri M inaugurating the Ultrasound Machine

Advancing Medical Infrastructure

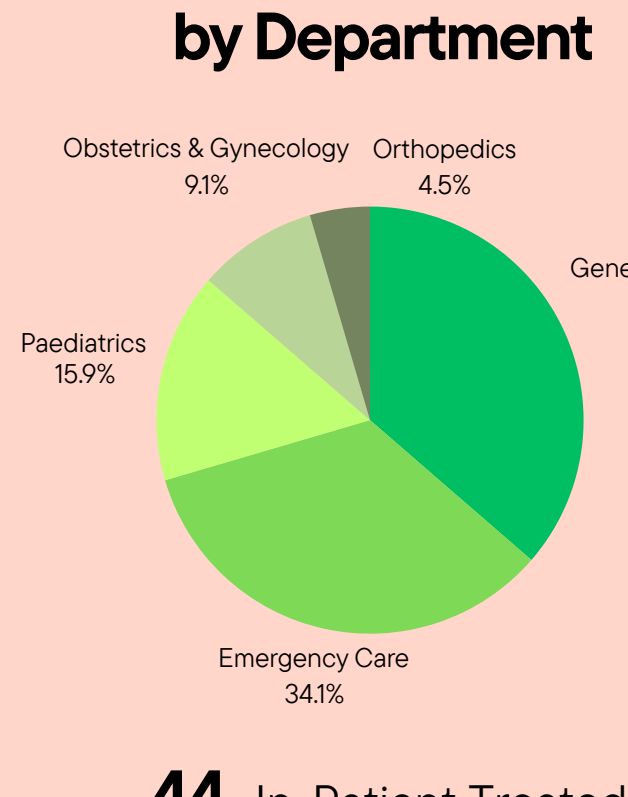

A major milestone this quarter was the inauguration of a dedicated Radiology Department by Sri M, equipped with state-of-the-art 64-slice CT scan, Ultrasound, and digital X-ray machines.

These additions enhance diagnostic capabilities, enabling non-invasive, real-time imaging for precise diagnoses and effective treatment plans. From monitoring expectant mothers to detecting cardiovascular and other medical conditions, these equipment ensure timely medical intervention.

Month of April by the Numbers

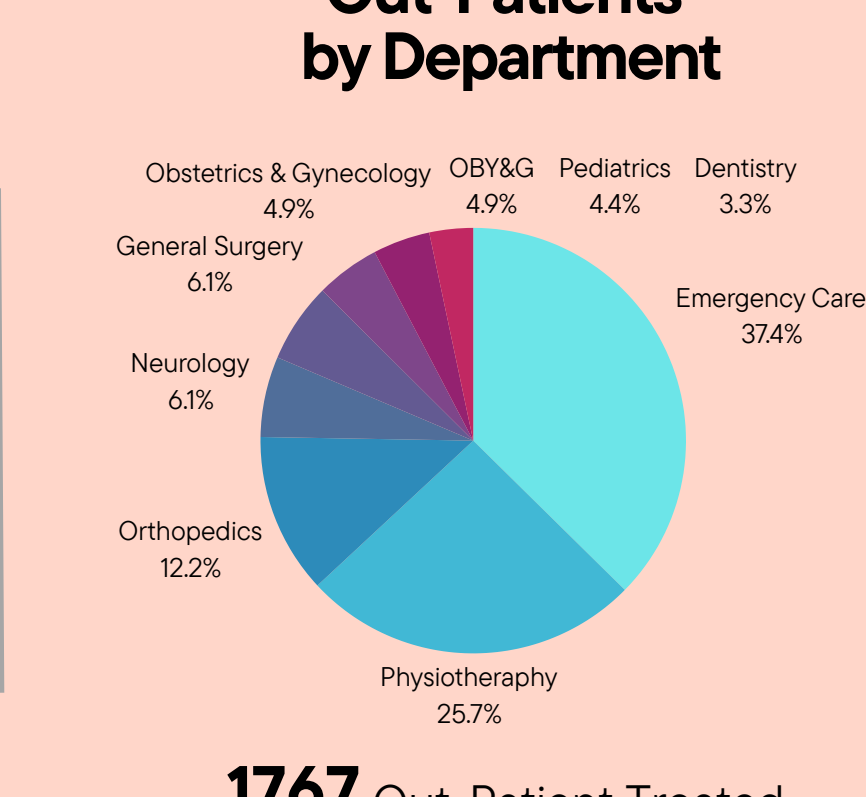

- 697** Unique Patients
- 13** Surgeries
- Diagnostic Tests**
- 22** CT Scan
- 02** Ultrasound
- 60** X-Ray

In-Patients by Department

44 In-Patient Treated
25 F : 19 M

Out-Patients by Department

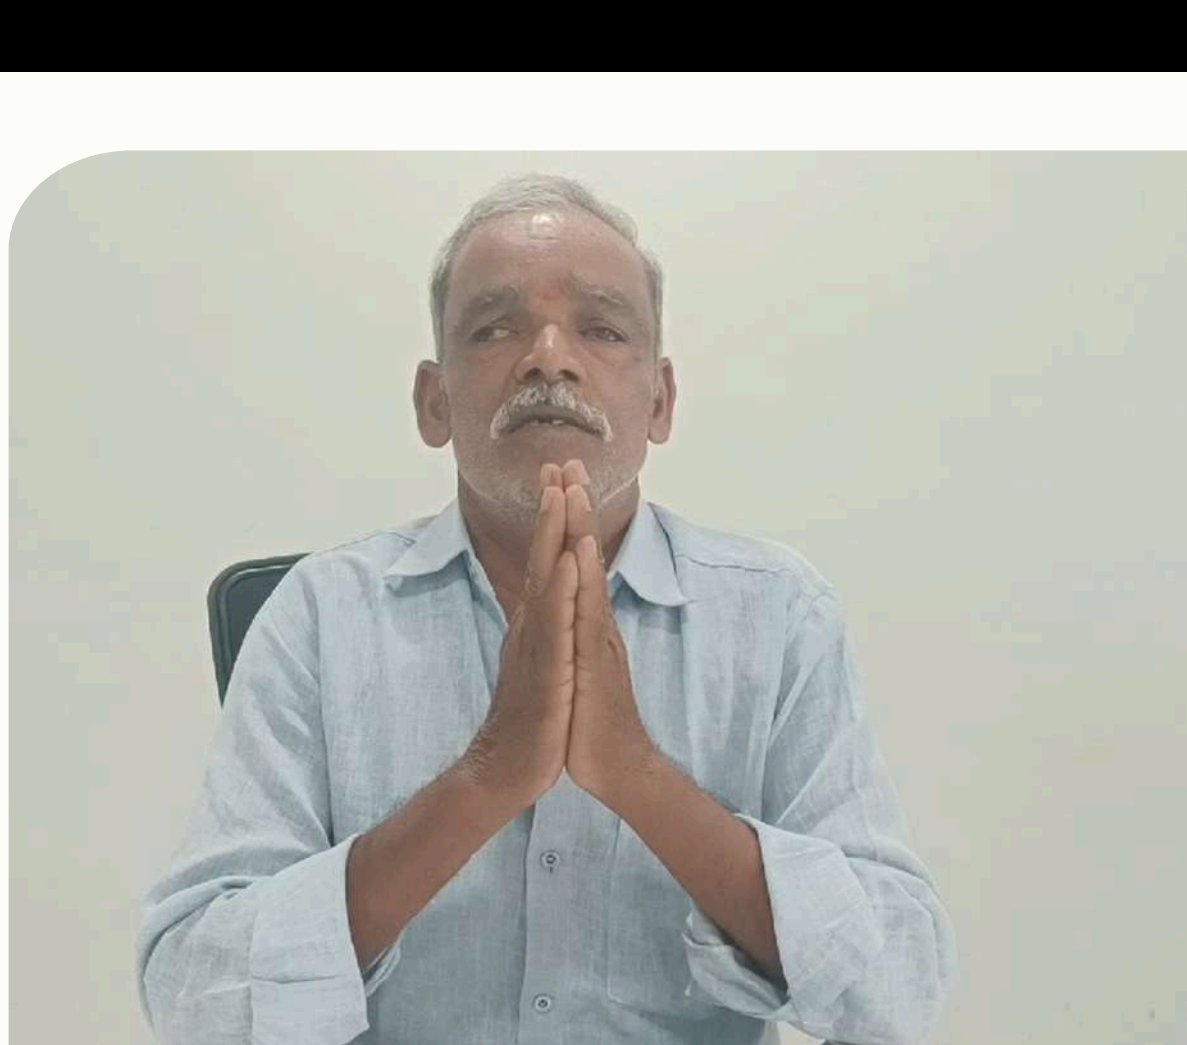

1767 Out-Patient Treated
938 F : 809 M

Community Outreach

- 271** Community Members Treated
- 5** Outreach Camps
- 146 : 125** Female : Male

Words of Gratitude

Breathing Again, Thanks to Swaasthya

"When my condition worsened, and I was placed on a ventilator at the state of the art ICU facility at Swaasthya Hospitals, I received exceptional care and recovered in four days. All expenses, except for diagnostics and medications, were covered at no cost. I am deeply grateful for the holistic care provided."

A 56-year-old Madanapalle resident expresses heartfelt thanks to the Swaasthya medical team for providing life-saving care during his battle with COPD Type 2 respiratory failure — made possible thanks to the generosity of donors who support accessible healthcare.
